SAGE FOUNDATION PLANS

ITS CHIEF, EFFORT IS TO AID OTHER SOCIAL WORKERS. .

Bebert W. de Forest in "The Survey" Outlines its Activities-The Fight Against Tuberculosis-Playgrounds Another

Robert W. de Forest tells in the curent issue of the Survey some of the things that have been done by the Russell Sage Foundation since Mrs. Sage estabished it by a gift of \$10,000,000 in 1907. Under the general terms of the gift

the trustees of the foundation were to undertake the "improvement of social and living conditions in this country. What they have done is shown for the first time in Mr. de Forest's article, the writer being not only a trustee of the foundation but Mrs. Sage's chief adviser

The foundation trustees were early

ments directed toward ends clearly within the purposes of the foundation and as to The cast was the same as at the

be predicated on greater knowledge. Research too in the ascertainment and record facts useful and necessary to direct

third-Publication, either in aid of propagandist movements or of the results of research likely to be of general utility. Aid to the corporate or individnal effort of others.

Fifth Direct action by its own staff. One of the first of the propagandist up was that for the prevention of tuberculosis. On this point Mr. de Forest says:
The foundation provided the means whereby a very successful campaign has been instituted in New York State through the State Charities Aid Association, which through its county organization was able most effectively to reach the State at large. The result of this campaign has been that over a million dollars has been appropriated by municipalities, counties and individuals

It has also helped the educational work

of the Charity Organization Society in Manhattan and the same work of the Brooklyn Bureau of Charities in Brooklyn. The handbook of the national association, compiled by Philip P. Jacobs and entitled "The Campaign Against Tuberculosis in the United States," was printed as a Russell Sage Foundation publication. It has enabled the national association to accomplish several other special pieces of work and to begin some educational work which when once proved successful will be supported by individual contributions.

The foundation contributed to the International Congress at Washington. It also paid part of the expense of the recent tuberculosis exhibition in New York, which attracted the unparalleled attendance of about 750,000 people within six weeks and here by a guarantee at a time when imdepended upon assurance of adequate

Another movement taken up by the foundation was that for the establishment and organization of playgrounds throughout the country. Says Mr. d. The Russell Sage Foundation has con-

tributed largely to this movement and has secured for it the guidance of Luther H Gulick, M. D., president of the Playground Association, and his assistant, Lee F

pal or private management. An active committed to jail. lating interest in and a knowledge of the

The foundation gave the money neces-sary to establish and operate at the James-tewn Exposition a model children's school garden. It has aided in the education of teachers for such gardens, and it has assured the continuance of the model garden in the neighborhood of New York to which the many who are seeking in-formation and direction on this subject

can be referred.

The foundation has aided a movement promote the organization of charitable ocieties in cities all over the country, so that the philanthropic efforts of the com-munities might be more effectively united. It has also helped the New York Associ-ation for the Blind, with special reference to the prevention of blindness in children. In research work the foundation has made a careful study of workingmen's and other forms of small insurance; of the evils of the salary loan and chattel ban business; of the desirability of establishing as majorment human in New March 1981. tablishing an employment bureau in New York city; of the causes of slow progress among school children. In regard to the desirability of establishing an employment bureau the writer says:

This investigation conducted by I Devine will unquestionably lead to the basis within a short time, and the Russell Sage Foundation stands ready to supply as much of the needed capital as may be necessary to supplement individual sub-

The foundation also supplied the funds for the study of the methods used and the results attained in relieving the earth-quake sufferers at San Francisco—this for

future guidance..
The foundation has supported also a minute study of industrial conditions in Pittsburg as a typical American industrial centre. Schools in Boston, New York, Chicago and St. Louis have been given

the means to establish departments for social investigation.

The subject on which the foundation is placing the greatest emphasis now is the housing of the working classes. It is giving its attention chiefly to suburban

is giving its attention chieffy to suburban housing.

The recent purchase of some fifty acres of land near Jamaica, which has been credited in the public press to Mrs. Russell Sage, was a purchase by the foundation. For more than a year past Grosvenor Atterbury, the well known architect, has been making for the foundation studies for small houses and experiments in cheap construction. Mr. de Forest says in conclusion:

The fundamental idea of the foundation is to place in the hands of qualified trustees.

s to place in the hands of qualified trustees come of a considerable fund with nower to use it in whatever particular way they think best from time to time to improve. social and living conditions. It is not confined, as have been so many foundations in the past, to a single form of social betterment. A foundation most needed and most beneficent a quarter of a century ago might non with the shift and change of social

conditions be comparatively useless. Gadski to Sing All Next Season.

Mme. Gadski has signed a contract with the Metropolitan Opera Company for all of next season. She has been under contract hitherto for only two months of every year. Signor Caruso has entirely recovered from his indisposition and will make his reappearance in afternoon in "Cavalleria Rusticana."

"FALSTAFF" AT THE OPERA. erdi's Opera Heard for the Third Time

Verdi's "Falstaff" had its third performance at the Motropolitan Opera House last night. There has now been sufficient opportunity to observe the present attitude of the operagoing public toward this admirable work, and it seems tol-

erably safe to predict that so long as it can be well performed it will not again be relegated to obscurity as it so speedily was fourteen years ago. The operatic point of view is now different and in many ways wiser. In those days sweet singing was in its supremacy and an understanding of the ar' of lyric impersonation was not widely a read among the patrons of the Metropelitan.

who appreciate both. To be sure, every, performance of "Falstaff" must be a puzzle to some of the indolent listeners, but it is indeed an educational work and frequent hearings of it will teach many what a real music drama means. It is by no means the least felicitous circumstance that it will reach a read

The foundation trustees were early obliged to exclude applications for individual or family need, for higher education and for church aid.

"The initial work of the foundation," says Mr. de Forest, "has been largely in the line of cooperation with other efforts. corporate and individual."

Mr. de Forest groups the early activities of the foundation roughly under these heads:

First—Educational propagandist movements directed toward ends clearly within the foundation trustees were early activities of the foundation roughly under these heads:

The performance of last evening was not quite so light footed in the first act as its predecessors, but probably those present were unaware of this. After the first act the action had greater briskness. But the delightful comedy of the opera, so cleverly arranged by Boito from Shakespeare's play and so wonderfully, so bewitchingly, so irresistibly published in Verdi's music, did not fail to communicate its message to the audiences.

ments directed toward ends clearly within the purposes of the foundation and as to which there could be no doubt of the expediency of action.

Second—Research relating to lines of effort in which action might be expedient but in which either expediency of action or the particular direction of action should

FOOTPADS CAUGHT AT WORK. Assailants of a Broker at Bath Beach Had Been Followed.

George Martin, a broker, of 1863 Cropsey avenue, Bath Beach, was hit on the head with a brick early yesterday morning and robbed of \$60. He had spent the evening in a Bath Beach saloon, and soon after he left Frank and Edward Jones, brothers, went out. Albert G. Glinsbrothers, went out. Albert G. Glinsmann, the proprietor, was suspicious and with Bartholomew Flanagan, an undertaker, followed the Joneses. Seeing Martin attacked they rushed up and after a short struggle subdued the assailants—the Joneses. At the Bath Beach police station the prisoners said they lived at 5606 Thirteenth avenue, Borough Park. Magistrate Voorhees in the Coney Island court held them in \$1,000 bail.

Dr. Ives of the Coney Island Reception Hospital treated Martin's injuries.

DEATH OF MATHILDE M. SHAW

Author of Works in French and a Well Known Teacher of That Language.

Mrs. Mathilde Marcelle Shaw, a teacher of French and author of several books in that language, was found dead in bed list night in her room in a boardinghouse at 262 West Eleventh street. Mrs. Shaw had been ill for some days with a pulmonary trouble growing out of bronchitis and had been under the care of Dr. Faxton E. Gardner, of 616 Madison avenue She was much better on Thursday night, Dr. Gardner says, but when he visited he again last night he found her door locked.

After rapping several times the door was broken open. The woman had been dead several hours, Dr. Gardner said, and

in his opinion death ultimately was caused by a weakened heart.

Mrs. Shaw was born sixty-six years ago in Marseilles, France. Her first flusband was Victor Fleckles, and a son by that marriage, L. Victor Fleckles, now she was said to have been distantly re-lated.

Mrs. Shaw was the author of "La in Japanese bonds.

Lindsay Russell, vice-president of the society, presided at the luncheon. Among those who sat with him were Jacob Schiff. Isaac N. Seligman, George Gray Ward, Ernest Suffern, John J. McCook, August Ernest Suffern, John J. McCook, August Bellman, O. H. Van Neder, Sandel Res. Snaw was the author of "La dore Roosevelt regarding a copy of this book which she had sent to the former President, of a book of reminiscences of Dumas and other prominent Frenchmen of her earlier days in Paris, and of several books on ethnological and anthropological subjects. She was at one time the head subjects.

MR. EGG TO BE MR. ECK. Joking About His Name Got firesome, He Explains.

Justice O'Gorman in the Supreme Court yesterday signed an order authorizing Ulrich Egg and his wife, Emilie Egg. to change their name. The Eggs are in the restaurant business and said that they could stand the joshing no lopger. They wanted immediate relief. but the Court's order will not go into effect until after Easter.

Mr. Egg left it to the newspaper men to say that his name had grown stale; in fact he got to a point where he didn't care what they said—all he wanted was a change. He said that his friends kept hammering away at him, one day asking him if he was scrambled and the next if he was an omelet. Those jokes are funny enough the first time you hear them, but Egg says they soon lose their freshness. He and his wife are the only eggs in the city directory. Besides assisting her husband in an advisory capacity Mrs. Egg runs a dressmaking establishment at 566 Fifth avenue and she says her name hurts business. After April fact he got to a point where he didn't her name hurts business. After April 29 they will be known as Mr. and Mrs. Ulrich Eck.

TO PREVENT KIDNAPPING.

Trenton Board of Education Won't Let Pupils Leave School With Strangers. TRENTON, N. J., April 2.-With a view of preventing kidnapping from the city schools the Trenton Board of Education notified all school principals to-day that no child in the lower grades should be allowed to leave school with a stranger.

In the event of such application being made teachers will be required to notify the homes of the children and satisfy themselves that their departure from school is under proper parental sanction.
